# Art and Design

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- actively engage in the creative process of art, craft and design to develop as effective and independent learners;
- become critical and reflective thinkers with enquiring minds;
- develop creative, imaginative and intuitive capabilities when exploring and making images, artefacts and products;
- become confident in taking risks and learn from experience when working with ideas, media, materials, processes and technologies;
- develop critical understanding through investigative, analytical, experimental, practical, technical and expressive skills;
- develop and refine ideas and proposals, personal outcomes or solutions with increasing independence;
- acquire and develop technical skills through working with a broad range of media, materials, techniques, processes and technologies with purpose and intent;
- develop knowledge and understanding of art, craft and design in historical and contemporary contexts, societies and cultures;
- develop an awareness of the different roles and individual work practices found in the creative and cultural industries;
- develop an awareness of the purposes, intentions and functions of art, craft and design in a variety of contexts and as appropriate to students' own work;
- demonstrate safe working practices in art, craft and design

Content	Assessment	Weightings
<b>Component 1:</b>	Controlled assessment	60%
<b>Part A: Exploratory Portfolio</b>	Internally set and assessed  Externally moderated	Part A: 25% 50 marks
<b>Part B: Investigating the Creative and Cultural Industries</b>	Internally set and assessed  Teachers set tasks based on examples from a controlled assessment booklet that we provide.  Externally moderated	Part B: 35% 70 marks
<b>Component 2: Externally Set Assignment</b>	Controlled assessment  Externally set and internally assessed  We set a stimulus paper that provides a choice of themed starting points.  Externally moderated	40%  80 marks

# Spanish

CCEA

## Course content / Specification

This specification aims to encourage students to:

- derive enjoyment and benefit from language learning and be inspired by following a broad, coherent and worthwhile course of study;
- recognise that their linguistic knowledge, understanding and skills provide them with a suitable basis for further learning opportunities and opportunities for career progression;
- develop knowledge of and an enthusiasm for language learning skills by providing opportunities for the practical use of Spanish;
- develop the confidence to communicate effectively in Spanish;
- develop the ability to work independently and with others;
- develop an understanding of Spanish in a variety of contexts;
- develop awareness and understanding of Spanish-speaking countries and communities; and
- take their place as citizens in a multilingual, global society.

Content	Assessment	Weightings	Availability
<p><b>Unit 1: Listening</b></p>	<p>External written examination with stimulus material in Spanish</p> <p>There are two tiers of entry:</p> <ul style="list-style-type: none"> <li>• Foundation (35 mins approx.); and</li> <li>• Higher (45 mins approx.).</li> </ul> <p>Students answer 12 questions. # Learning for Life and Work

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- develop the skills required to think independently, make informed decisions and take appropriate courses of action in relation to personal, social, economic and employment issues;
- develop a deeper understanding of the impact of change on individuals, society and the economy;
- develop a deeper understanding of the connections between local, national and global issues;
- develop higher-order critical and creative thinking skills;
- develop their ability to work effectively with others;
- develop the knowledge, understanding, skills and confidence to critically challenge accepted views and assumptions;
- develop a critical and analytical approach to problem solving and decision making;
- develop their knowledge, understanding and skills, and progress to further or higher education and employment.

<b>Content</b>	<b>Assessment</b>	<b>Weightings</b>
<b>Unit 1: Local and Global Citizenship</b>	External written examination  60 marks  1 hour  The written paper includes short structured questions and extended writing questions.	20%
<b>Unit 2: Personal Development</b>	External written examination  60 marks  1 hour  The written paper includes short structured questions and extended writing questions.	20%
<b>Unit 3: Employability</b>	External written examination  60 marks  1 hour  The written paper includes short structured questions and extended writing questions.	20%

<p><b>Unit 4: Controlled Assessment Task (Investigation)</b></p>	<p>Controlled assessment</p> <p>100 marks</p> <p>Students complete <b>one</b> task from a choice of three. The task is an investigation on a topic in one of the following:</p> <ol style="list-style-type: none"> <li>1. Local and Global Citizenship;</li> <li>2. Personal Development; or</li> <li>3. Employability.</li> </ol> <p>The task involves the following:</p> <ul style="list-style-type: none"> <li>• Part A: Planning;</li> <li>• Part B: Research;</li> <li>• Part C: Communicating Findings;</li> <li>• Part D: Self-Evaluation; and</li> <li>• Part E: Presentation of Task.</li> </ul> <p>Teachers mark the task, and we moderate the results.</p>	<p>40%</p>

# Mathematics

CCEA

## Course content/ Specification

**Year 11: Pupils choose one unit from either-**

- Unit M1 or M2- Foundation Tier; or
- Unit M3 or M4- Higher Tier

**Year 12: Pupils choose one unit from either-**

- Unit M5 or M6 Foundation Tier; or
- Unit M7 or M8 Higher Tier

This specification aims to encourage students to:

- develop fluent knowledge, skills and understanding of mathematical methods and concepts;
- acquire, select and apply mathematical techniques to solve problems;
- reason mathematically, make deductions and inferences and draw conclusions; and
- comprehend, interpret and communicate mathematical information in a variety of forms appropriate to the information and context.

### Foundation Tier Option 1

Content	Assessment	Weightings	Availability
<b>Unit M1: Foundation Tier</b>	External written examination <b>with</b> calculator  1 hour 45 mins	45%	Summer from 2018 and January from 2019
<b>Unit M5: Foundation Tier Completion Test</b>	Two external written examinations: <ul style="list-style-type: none"><li>• Paper 1 <b>without</b> calculator 1 hour</li><li>• Paper 2 <b>with</b> calculator 1 hour</li></ul>	55%	Summer from 2019 and January from 2020

### Foundation Tier Option 2

Content	Assessment	Weightings	Availability
<b>Unit M2: Foundation Tier</b>	External written examination <b>with</b> calculator  1 hour 45 mins	45%	Summer from 2018 and January from 2019
<b>Unit M6: Foundation Tier Completion Test</b>	Two external written examinations: <ul style="list-style-type: none"><li>• Paper 1 <b>without</b> calculator 1 hour</li><li>• Paper 2 <b>with</b> calculator 1 hour</li></ul>	55%	Summer from 2019 and January from 2020

### Higher Tier Option 1

Content	Assessment	Weightings	Availability
<b>Unit M3: Higher Tier</b>	External written examination <b>with</b> calculator  2 hours	45%	Summer from 2018 and January from 2019
<b>Unit M7: Higher Tier Completion Test</b>	Two external written examinations: <ul style="list-style-type: none"><li>• Paper 1 <b>without</b> calculator 1 hour 15 mins</li><li>• Paper 2 <b>with</b> calculator 1 hour 15 mins</li></ul>	55%	Summer from 2019 and January from 2020

### Higher Tier Option 2

Content	Assessment	Weightings	Availability
<b>Unit M4: Higher Tier</b>	External written examination <b>with</b> calculator  2 hours	45%	Summer from 2018 and January 2019
<b>Unit M8: Higher Tier Completion Test</b>	Two external written examinations: <ul style="list-style-type: none"><li>• Paper 1 <b>without</b> calculator 1 hour 15 mins</li><li>• Paper 2 <b>with</b> calculator 1 hour 15 mins</li></ul>	55%	Summer from 2019 and January from 2020

Students must take at least 40 percent of the assessment (based on unit weightings) at the end of the course as terminal assessment.

CCEA WEBSITE HYPERLINK: MATHEMATICS

<https://ccea.org.uk/key-stage-4/gcse/subjects/gcse-mathematics-2017>

# Further Mathematics

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- develop further their mathematical knowledge, skills and understanding;
- select and apply mathematical techniques and methods to mathematical, everyday and real-world situations;
- reason mathematically, interpret and communicate mathematical information, make deductions and inferences, and draw conclusions;
- extend their base in mathematics from which they can progress to:
- higher studies in mathematics; and/or
- studies such as science, geography, technology or business, which contain a significant requirement in mathematics beyond Higher Tier GCSE Mathematics; and
- design and develop mathematical models that allow them to use problem-solving strategies and apply a broader range of mathematics to a variety of situations.

Content	Assessment	Weightings	Availability
<b>Unit 1: Pure Mathematics (Mandatory)</b>	External written examination in the form of a single question-and-answer booklet that includes a formula sheet  2 hours	50%	Summer from 2018
<b>Unit 2: Mechanics (Optional)</b>	External written examination in the form of a single question-and-answer booklet that includes a formula sheet  1 hour	25%	Summer from 2019
<b>Unit 3: Statistics (Optional)</b>	External written examination in the form of a single question-and-answer booklet that includes a formula sheet  1 hour	25%	Summer from 2019
<b>Unit 4: Discrete and Decision Mathematics (Optional)</b>	External written examination in the form of a single question-and-answer booklet  1 hour	25%	Summer from 2019

Students must take at least 40 percent of the assessment (based on unit weightings) at the end of the course as terminal assessment.

# Statistics

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- develop understanding of the basic concepts of statistical problem solving in a way that encourages confidence and enjoyment of the subject in everyday and real-life situations;
- develop and apply their knowledge, skills and understanding in planning a statistical enquiry;
- develop knowledge of methods that are commonly used to collect statistical data and understanding of difficulties they may encounter when collecting data;
- develop skills of processing, analysing and representing data and understand which techniques are appropriate in particular situations;
- develop their ability to interpret and evaluate the outcomes of a statistical enquiry, thinking critically and communicating their conclusions clearly;
- develop their ability to use appropriate technology to work with data;
- develop understanding of the importance of statistical information to individual citizens and to society as a whole as well as its limitations, including recognising misleading representations and uses of statistics;
- develop understanding of how technology enables the collection, visualisation and analysis of large quantities of data to inform decision-making in a variety of organisations including public, commercial, charitable and academic sectors.

Content	Assessment	Weightings
<p><b>Unit 1</b></p>	<p>External written examination</p> <p>Foundation Tier: 1 hour 30 minutes 80 marks <b>OR</b> Higher Tier: 2 hours 100 marks</p> <p>All questions are compulsory.</p>	<p>50%</p>
<p><b>Unit 2</b></p>	<p>External written examination</p> <p>Foundation Tier: 1 hour 30 mins 80 marks <b>OR</b> Higher Tier: 2 hours 100 marks</p> <p>Some questions are set on the information in the pre-release case study.</p> <p>All questions are compulsory.</p>	<p>50%</p>

# Media Studies

AQA

## Course content/ Specification

GCSE Media Studies engages students in the in-depth study of media products in relation to the four areas of the theoretical framework:

- media language;
- media representation;
- media industries;
- media audiences.

Students are required to study media products from all of the following media forms:

- television;
- film;
- radio;
- newspapers;
- magazines;
- advertising and marketing;
- online, social and participatory media;
- video games;
- music video.

AQA WEBSITE HYPERLINK: MEDIA STUDIES

<https://www.aqa.org.uk/subjects/media-studies/gcse/media-studies-8572/specification-at-a-glance>

# Media Studies

WJEC

## Course content/ Specification

This GCSE Media Studies specification is based on the key concepts for exploring and creating media. The framework is based on four inter-related areas:

- media language: how forms, codes and conventions create meanings
- representation: how the media portray events, issues, individuals and social groups
- media industries: production and distribution
- audiences: how audiences respond to and interact with media products and processes.

The framework provides a holistic and focused approach to interpreting and analysing the media, which learners will develop progressively as they study the three units.

1. Exploring the Media
2. Understanding Television and Film
3. Creating Media

# Music

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- engage actively in studying music;
- develop the knowledge, understanding and skills needed to communicate effectively as musicians, including: - performing skills, individually and in a group, to communicate musically with fluency and control; and - composing skills to organise musical ideas and make use of appropriate resources;
- recognise the interdependence of musical knowledge, understanding and skills and make links between the integrated activities of performing, composing, listening and appraising;
- develop awareness of music technologies and their use in creating and presenting music;
- reflect critically and make personal judgements on their own music and the music of others;
- progress to further study, for example Advanced Subsidiary (AS) and Advanced level (A level);
- develop particular strengths and interests, thereby encouraging lifelong learning and providing access to music-related and other careers;
- engage with, and extend their appreciation of, the diverse heritage of music to promote personal, social, intellectual and cultural development;
- continue to develop as individuals and as contributors to society, the economy and the environment through active engagement in musical activities.

Content	Assessment	Weightings
<b>Component 1: Performing and Appraising</b>	<p>External examination assessed by a visiting examiner</p> <p>Students present <b>one</b> solo and <b>one</b> ensemble performance.</p> <p>The combined duration of the performances should be no longer than <b>6 minutes</b>.</p> <p>Students discuss and evaluate performances with the visiting examiner.</p> <p>Discussion lasts approximately <b>3 minutes</b>.</p>	<p>Total: 35%</p> <p>Performances: 30%</p> <p>Discussion: 5%</p>
<b>Component 2: Composing</b>	<p>Controlled assessment</p> <p>Students create <b>two</b> compositions. One is in response to a pre-release stimulus and one is free choice.</p> <p>Teachers mark the tasks, and we moderate the results.</p>	30%
<b>Component 3: Listening and Appraising</b>	<p>External written examination</p> <p><b>1 hour 30 minutes</b></p> <p>Students answer questions based on familiar and unfamiliar music relating to the Areas of Study.</p>	35%

CCEA WEBSITE HYPERLINK: MUSIC

<https://ceea.org.uk/key-stage-4/gcse/subjects/gcse-music-2017>

# Physical Education

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- develop an appreciation of physical education in a wide range of contexts;
- develop theoretical knowledge and understanding of health and performance to evaluate and improve these in physical activities and sports;
- understand how the physiological and psychological state affects health and performance in physical activities and sports;
- perform efficiently, effectively and consistently in different physical activities and sports by developing their physical fitness, skills and techniques;
- select and use strategies, tactics and/or compositional ideas;
- develop their ability to analyse, evaluate and implement safe, appropriate and effective plans to improve health and performance in physical activities and sports;
- develop knowledge and understanding of the active leisure industry and how it contributes to developing good health and outstanding physical performance;
- develop knowledge and understanding of successful event management and be able to plan active leisure events.

Content	Assessment	Weightings
<b>Component 1: Factors Underpinning Health and Performance</b>	<p>External written examination</p> <p>1 hour 15 mins</p> <p>Students answer short response questions and questions that require extended writing.</p> <p>100 marks</p>	25%
<b>Component 2: Developing Performance</b>	<p>External written examination</p> <p>1 hour 15 mins</p> <p>Students answer short response questions and questions that require extended writing.</p> <p>100 marks</p>	25%
<b>Component 3: Individual Performances in Physical Activities and Sports</b>	<p>Controlled assessment</p> <p>(a) Students are assessed on the consistent quality, efficiency and effectiveness of their performances in physical activities and/or sports.</p> <p>Students perform <b>three</b> physical activities and/or sports from the list that we supply.</p> <p>For <b>one</b> physical activity or sport, the assessment may be based on the consistent quality, efficiency and effectiveness of the student's performance as an <b>event manager</b>.</p>	50%

		<p>3 × 50 = 150 marks</p> <p>and</p> <p>(b) Students are assessed on the consistent quality of their analysis and evaluation of their own and others' performances.</p> <p>50 marks</p>

# Religious Studies

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- be inspired, moved and changed by following a broad and worthwhile course of study that will challenge and equip them to lead constructive lives in the modern world;
- develop their interest in and enthusiasm for the study of religion, and relate it to the wider world;
- adopt an enquiring, critical and reflective approach to the study of religion;
- reflect on and develop their own values, opinions and attitudes in light of their learning;
- explore religions and beliefs, giving them opportunities to reflect on fundamental questions related to belief, engage with them intellectually and respond personally;
- enhance their spiritual and moral development, and contribute to their health and well-being; and
- enhance their personal, social and cultural development, along with their understanding of different cultures locally, nationally and in the wider world, so they may contribute to social and community cohesion

Content	Assessment	Weightings
<p><b>Unit 1:</b> The Christian Church through a Study of the Catholic Church and the Protestant Church</p> <p><b>Unit 2:</b> The Christian Church with a Focus on EITHER the Catholic Church OR the Protestant Church</p> <p><b>Unit 3:</b> The Revelation of God and the Christian Church</p> <p><b>Unit 4:</b> Christianity through a Study of the Gospel of Matthew</p> <p><b>Unit 5:</b> Christianity through a Study of the Gospel of Mark</p> <p><b>Unit 6:</b> An Introduction to Christian Ethics</p> <p><b>Unit 7:</b> An Introduction to Philosophy of Religion</p> <p><b>Unit 8:</b> Islam</p> <p><b>Unit 9:</b> Judaism</p>	<p><b>Short Course:</b> one external written examination on students' chosen unit lasting 1 hour 30 mins</p> <p><b>Full Course:</b> two external written examinations, one on each of students' chosen units, lasting 1 hour 30 mins each</p>	<p><b>Short Course:</b> written examination worth 100%</p> <p><b>Full Course:</b> each written examination worth 50%</p>

Full Course students complete **two** of the nine units.

Short Course students complete **one** of the nine units.

# Single Award Science

CCEA

## Course content / Specification

This specification aims to encourage students to:

- develop their knowledge and understanding of the material, physical and living worlds;
- develop their understanding of the nature of science and its applications and the interrelationships between science and society;
- develop their understanding of the relationships between hypotheses, evidence, theories and explanations;
- develop and apply their observational, practical, enquiry and problem-solving skills and understanding in laboratory, field and other learning environments;
- develop their ability to evaluate claims based on science through critical analysis of the methodology, evidence and conclusions; and
- develop their skills in communication, mathematics and the use of technology in scientific contexts.

Content	Assessment	Weightings	Availability
<b>Unit 1: Biology</b>	External written examination  Foundation and Higher Tiers: 1 hour  Students answer compulsory structured questions that include short responses, extended writing and calculations.	25%	February and November only in 2018  February, <b>Summer</b> and November from 2019
<b>Unit 2: Chemistry</b>	External written examination  Foundation and Higher Tiers: 1 hour  Students answer compulsory structured questions that include short responses, extended writing and calculations.	25%	February and November only in 2018  February, <b>Summer</b> and November from 2019
<b>Unit 3: Physics</b>	External written examination  Foundation and Higher Tiers: 1 hour  Students answer compulsory structured questions that include short responses, extended writing and calculations.	25%	February and November only in 2018  February, <b>Summer</b> and November from 2019

Content	Assessment	Weightings	Availability
<b>Unit 4: Practical Skills</b>	<b>Booklet A</b> Practical skills assessment  Foundation and Higher Tiers: 2 hours  Students carry out two pre-release practical tasks (from two of Biology, Chemistry and Physics) in the final year of study.	7.5%	Between 1 January and 1 May from 2019
	<b>Booklet B</b> External written examination  Foundation Tier: 1 hour  Higher Tier: 1 hour 15 mins  Students answer compulsory structured questions that include short responses, extended writing and calculations all set in a practical context for Biology, Chemistry and Physics.	17.5%	Summer from 2019

Students must take at least 40 percent of the assessment (based on unit weightings) at the end of the course as terminal assessment.

CCEA WEBSITE HYPERLINK: SINGLE AWARD SCIENCE

<https://ccea.org.uk/key-stage-4/gcse/subjects/gcse-science-single-award-2017>

# Double Award Science

CCEA

## Course content / Specification

This specification aims to encourage students to:

- develop their knowledge and understanding of the material, physical and living worlds;
- develop their understanding of the effects of science on society;
- develop their understanding of the importance of scale in science;
- develop and apply their knowledge and understanding of the nature of science and of the scientific process;
- develop their understanding of the relationships between hypotheses, evidence, theories and explanations;
- develop their awareness of risk and the ability to assess potential risk and potential benefits;
- develop and apply their observational, practical, modelling, enquiry and problem-solving skills and understanding in laboratory, field and other learning environments;
- develop their ability to evaluate claims based on science through critical analysis of the methodology, evidence and conclusions both qualitatively and quantitatively; and
- develop their skills in communication, mathematics and the use of technology in scientific contexts.

<b>Content</b>	<b>Assessment</b>	<b>Weightings</b>	<b>Availability</b>
<b>Biology Unit B2: Body Systems, Genetics, Microorganisms and Health</b>	<p>External written examination</p> <p>Students answer compulsory structured questions that include short responses, extended writing and calculations.</p> <p>There are two tiers of entry.</p> <p>Foundation and Higher Tiers: 1 hour 15 mins</p>	14%	Summer from 2019
<b>Chemistry Unit C2: Further Chemical Reactions, Rates and Equilibrium, Calculations and Organic Chemistry</b>	<p>External written examination</p> <p>Students answer compulsory structured questions that include short responses, extended writing and calculations.</p> <p>There are two tiers of entry.</p> <p>Foundation and Higher Tiers: 1 hour 15 mins</p>	14%	Summer from 2019
<b>Physics Unit P2: Waves, Light, Electricity, Magnetism, Electromagnetism and Space Physics</b>	<p>External written examination</p> <p>Students answer compulsory structured questions that include short responses, extended writing and calculations.</p> <p>There are two tiers of entry.</p> <p>Foundation and Higher Tiers: 1 hour 15 mins</p>	14%	Summer from 2019

Content	Assessment	Weightings	Availability
<b>Unit 7: Practical Skills</b> <b>This comprises Unit 7 Biology, Unit 7 Chemistry and Unit 7 Physics</b>	<b>Booklet A</b>  Externally marked  Students carry out three pre-release practicals (Biology, Chemistry and Physics) in the final year of study.  There are two tiers of entry.  Foundation and Higher Tiers: 3 hours	7.5%	Between 1 January and 1 May from 2019
	<b>Booklet B</b>  External written examination  Students answer compulsory structured questions that include short responses, extended writing and calculations, all set in a practical context for Biology, Chemistry and Physics.  There are two tiers of entry.  Foundation and Higher Tiers total time: 1 hour 30 mins (Biology 30 mins, Chemistry 30 mins and Physics 30 mins)	17.5%	Summer from 2019

Students must take at least 40 percent of the assessment (based on unit weightings) at the end of the course as terminal assessment.

# Biology

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- develop their knowledge and understanding of biology;
- develop their understanding of the effects of biology on society;
- develop an understanding of the importance of scale in biology;
- develop and apply their knowledge and understanding of the nature of science and of the scientific process;
- develop their understanding of the relationships between hypotheses, evidence, theories and explanations;
- develop their awareness of risk and the ability to assess potential risk in the context of potential benefits;
- develop and apply their observational, practical, modelling, enquiry and problem solving skills and understanding in laboratory, field and other learning environments;
- develop their ability to evaluate claims based on science through critical analysis of the methodology, evidence and conclusions both qualitatively and quantitatively; and
- develop their skills in communication, mathematics and the use of technology in scientific contexts.

<b>Content</b>	<b>Assessment</b>	<b>Weightings</b>	<b>Availability</b>
<b>Unit 1: Cells, Living Processes and Biodiversity</b>	<p>External written examination</p> <p>Students answer compulsory structured questions that include short responses, extended writing and calculations.</p> <p>Foundation and Higher Tiers: 1 hour 15 mins</p>	35%	Summer from 2018
<b>Unit 2: Body Systems, Genetics, Microorganisms and Health</b>	<p>Externally written examination</p> <p>Students answer compulsory structured questions that require short responses, extended writing and calculations.</p> <p>Foundation and Higher Tiers: 1 hour 30 mins</p>	40%	Summer from 2019
<b>Unit 3: Practical skills</b>	<p><b>Booklet A</b></p> <p>Students carry out two externally marked pre-release practicals in the final year of study.</p> <p>Foundation and Higher Tiers: 2 hours</p>	7.5%	Between 1 January and 1 May each year (beginning in 2019)

Content	Assessment	Weightings	Availability
	<p><b>Booklet B</b></p> <p>External written examination</p> <p>Students answer compulsory structured questions that include short responses, extended writing and calculations, all set in a practical context.</p> <p>There are two tiers of entry</p> <p>Foundation and Higher Tiers: 1 hour</p>	17.5%	<p>Every Summer</p> <p>(beginning in 2019)</p>

# Physics

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- appreciate the value of physics in their lives and in the wider world around them;
- develop their knowledge and understanding of physics;
- develop their understanding of the effects of physics on society;
- develop an understanding of the importance of scale in physics;
- develop and apply their knowledge and understanding of the nature of physics and of the scientific process;
- develop their understanding of the relationships between hypotheses, evidence, theories and explanations;
- develop their awareness of risk and the ability to assess potential risk in the context of potential benefits;
- develop and apply their observational, practical, modelling, enquiry and problem- solving skills;
- develop their ability to evaluate claims based on science through critical analysis of the methodology, evidence and conclusions both qualitatively and quantitatively; and
- develop their skills in communication, mathematics and the use of technology in scientific contexts.

# Occupational Studies

CCEA

## Course content/ Specification

Occupational Studies should enable learners to:

- develop the knowledge, understanding and skills they need to undertake work-based tasks;
- engage actively in work-based learning within coherent occupational contexts;
- reflect on their learning;
- develop an appreciation of the progression/career opportunities that exist through the study of Occupational Studies;
- develop an appreciation of the environmental impacts of the practical tasks they carry out within occupational contexts; and
- develop an awareness of general and specific health and safety issues arising from activities within occupational contexts.

Occupational Area	Assessment	Weighting
Business and Services (15 units available)	Internal assessment.	50% for each unit
Construction (8 units available)	Learners complete two units from their chosen occupational area.  They carry out tasks to gather the required assessment evidence in a portfolio for each unit.  Tasks include answering questions, carrying out practical activities and evaluating their own performance.  The teacher/lecturer assesses the portfolio of evidence, and we carry out external moderation.	
Design and Creativity (12 units available)		
Engineering and Engineering Services (11 units available)		
Environment and Society (9 units available)		
Technology and Innovation (9 units available)

# Technology and Design

CCEA

## Course content/ Specification

This specification aims to encourage students to:

- use imagination and develop skills of creativity and critical analysis through making links between existing solutions, technological knowledge and the principles of good design;
- communicate design ideas and decisions using a range of media and techniques;
- use a broad range of materials, components and technologies, as well as practical skills, to develop and produce high quality, imaginative and functional prototypes;
- consider aesthetic, technical, economic, environmental, ethical and social dimensions when engaged in design and making;
- consider the costs in the making and marketing of products;
- apply health and safety procedures to ensure safe working practices;
- analyse and develop existing products and develop practical solutions to needs, wants and opportunities, recognising their impact on quality of life;
- develop decision-making skills through individual and collaborative working;
- apply appropriate technology and design terminology;
- understand that designing and making reflect and influence cultures and societies, and that products have an impact on lifestyle;
- combine skills with knowledge and understanding in order to make quality products.

Content	Assessment	Weightings
<b>Unit 1: Technology and Design Core Content</b>	External written examination 1 hour 30 mins Students answer <b>10</b> questions from a core area of study.	25%
<b>Unit 2: Optional Areas of Study</b>	One of three optional written examinations  1 hour 30 mins  Students choose <b>one of three</b> options:  A. Electronic and Microelectronic Control Systems; or  B. Mechanical and Pneumatic Control Systems; or  C. Product Design.  Students should select the option that reflects the area of Technology and Design they have studied.	25%
<b>Unit 3: Design and Manufacturing Project</b>	Controlled assessment  Students complete a design project comprising a design portfolio and an associated manufacturing task.  Teachers mark the design project, and we visit centres to carry out moderation.	50%
